

Medallion II

Medallion II is Virginia Medicaid's Managed Care program that requires mandatory enrollment in a contracted Managed Care Organization (MCO). MCOs are now operating in 114 Virginia localities with enrollment topping 421,000 in October 2008.

The Medallion II program is a fully capitated, risk-based, mandatory Medicaid/FAMIS Plus managed care program. In most areas of the Commonwealth, qualified Medicaid/FAMIS Plus recipients choose between at least two contracted Managed Care Organizations (MCO). In areas where only one contracted MCO participates, recipients have the choice of the MEDALLION PCCM or the Medallion II program.

Not all Medicaid/FAMIS Plus* clients are eligible for enrollment in a MCO. Eligibles include:

- ◆ Families and Children
- ◆ Blind
- ◆ Disabled
- ◆ Aged

In order to see managed care eligible clients, PCPs must become part of the MCOs' networks and follow their rules and regulations.

Clients will receive most services through their MCO, and must follow the rules of that MCO for referrals, appointments, and other administrative requirements. Clients do not have to get referrals from their PCP for the following services:

- ◆ Immunizations
- ◆ Family Planning/OB/GYN services
- ◆ Mental health/mental retardation state plan option services
- ◆ School health services

Eligible clients can enroll in an MCO by calling the Managed Care HelpLine at 800-643-2273 (TTY/TDD 800-817-6608)

8:30 am – 6 pm, Monday through Friday

*FAMIS Plus is the name for children's Medicaid. These individuals receive the same services as other Medicaid recipients.
